

MARINE BIOLOGY SINGLE MAJOR

Marine biology is the study of marine organisms, their behaviours and interactions with the environment

Level 1

Dynamic Planet
(EART1105) Sem-1

Frontiers in Biology
(BIOL1130) Sem-1

**Plant and Animal
Biology**
(BIOL1131) Sem-2

**Science, Society and
Data Analysis**
(SCIE1104) Sem-1, 2

Level 2

Marine Systems
(SCIE2204) Sem-1

Ecology
(ENVT2250) Sem-1

Marine Biology
(BIOL2204) Sem-2

**Global Climate Change
and Biodiversity**
(ENVT2221) Sem-2

Level 3

**Coastal Conservation
and Management**
(ENVT3306) Sem-1

**Field Techniques in
Marine Science**
(SCIE3304) Sem-1

Oceanography
(ENVT3307) Sem-2

**Fisheries Science:
Foundation and
Application**
(BIOL3305) Sem-2

Trending Second Majors

*Environmental Science, Conservation Biology,
Zoology*

What Next?

*Bachelor of Science (Honours) – Marine Science
Master of Biological Science*

Employment Opportunities

*Marine Biologist, Ecotourism, Environmental
Consultant, Environmental Manager, Aqua
Culturist, Research Scientist*

Career Pathways

*Graduates may find careers in marine consulting,
resources industries, marine industry, marine
renewables, aquaculture, as well as research and
development in industry, universities and state and
federal government (e.g. DPRID), Marine Conservation (e.g. DBCA)
or lead marine research projects (e.g. CSIRO and
AIMS)*
